BULLETIN No. 4

SURPLUS STOCK

—FROM—

**The Huntsville Wholesale Nurseries,
HUNTSVILLE, ALABAMA.**

Shipments From St. Louis and Philadelphia

—AT—

ONE DAY'S NOTICE.

WE have for the past twenty years offered in assorted lots at St. Louis in Spring such stock as we had in surplus. Herein is a schedule of what we now have in St. Louis for immediate shipment. The stock is exclusively of our own growing at Huntsville, Alabama, fresh dug this Spring, and packed in the best manner in moss, and warranted in fine condition. Everything is fine of the grade, with full fibrous roots, and not culled, as we adhere to a strict system of grading.

BELOW THE BLIZZARD LINE.

Our nurseries are far enough south to escape the severe freezing weather. Everything is bright, green and fresh—sound to the tips. Nearly all the sorts offered are standard sorts, such as most nursery men can use in assortment with their own growing. Orders should be sent in as soon as possible, but the stock need not be shipped until wanted, as we are prepared to hold it in good condition. We have nothing for sale not offered on this list.

It will be noticed by some of our correspondents that we have refused orders the past season for several articles listed. Our fear of overselling and some countermands account for this. We ask attention to the small-sized trees offered for transplanting into nursery rows. All of the small trees, as well as the large ones, are very nicely rooted, and everything is young, smooth and bright.

We can refer to nurserymen who have bought of us in nearly every State and Territory. We can give satisfaction, and guarantee it for these shipments.

TERMS.—Cash with order, or 30 to 60 days from date of shipment to responsible prompt-paying parties. In box lots the price of boxes is included, but the price of boxes on orders filled from the Nurseries is extra. The cost of drayage will be charged in both cases.

For convenience in telegraphing a cipher is given. The cipher word stands for one box only in cases where there are more than one in the same assortment.

Address, **W. F. HEIKES, Manager,**

Room 605 Burlington Building,

St. Louis, Mo., March 23, 1900.

Address: Room 605 Burlington Building, St. Louis, Mo.

Mr. Heikes is now in St. Louis to give his personal attention to all matters connected with this business.

Use the Nurserymen's Telegraphic Code in Telegraphing. Any one not in possession of a copy will be supplied upon application.

ASSORTED LOTS.

We offer the following assortments in box lots at low prices to insure quick sales, as we will not open or repack anything in St. Louis this Spring. The stock is of the same quality as that sent out by us heretofore. Each box contains an assortment as shown. In ordering one or more boxes, should the particular lots desired be sold, state what substitution will be allowed. The prices quoted include the cost of boxes and the freight from Huntsville to St. Louis—the drayage charges at St. Louis are to be paid by the purchaser. When the postoffice address and the railroad station differ, always give explicit marks for the boxes when ordering.

PERFECT DORMANT CONDITION.

Our stock is all in perfect dormant condition and we are prepared to keep it so until the end of the season, as everything is now in cold storage.

INSPECTOR'S CERTIFICATE.

Our card with Inspector's Certificate is placed on all boxes and packages. Any one ordering from a State where more than this is required should inform us in ample time to comply with the law. Should any one desire this card removed before shipping, it should be stated in the order.

FREQUENT BULLETINS.

We will issue Bulletins from St. Louis weekly during March and April. Any one failing to receive them regularly will please write for copies.

FREEZING WEATHER.

There is always more or less danger of trees being caught en route in freezing weather in Spring. We pack in such a manner that should the contents of the boxes freeze solid on the way to our customers, the trees will receive no injury if the frost is allowed time to come out before the trees are removed from the boxes. The trees should be taken from the boxes as soon as the frost is out, or should there be no frost in the boxes when received, the trees should be removed from the boxes immediately upon arrival. We practice in this respect what the experience of many years has taught us. If our customers will follow these rules and notify us at once, upon examination of the trees, we will guarantee good condition. Notice should be sent us by telegraph at our expense, if there is any cause of complaint, or should the trees be refused, stating reasons. The trees will be considered accepted if removed from the boxes in which they are packed.

TERMS AND CONDITIONS.

For further terms and conditions concerning risk of transportation, claims etc., see our monthly price list in *THE PRACTICAL NURSERYMAN*.

LINING OUT.

We offer the following for "Lining Out" in nursery rows, for which we will take notes bearing interest at the maximum legal rate, payable May 1st, 1901, on responsible, prompt-paying parties. The Japan Plums listed below are put in this list because of bad-shaped tops—every other way they are fine. We include in this list for "Lining Out" peaches, 7-16 to $\frac{1}{2}$ and under sizes; plums, 7-16 to $\frac{1}{4}$ and under sizes:

2 Boxes, each containing 300 Burbank $\frac{3}{4}$ to 11-16.....	Lobby	10 00
